

## PHARMACY BENEFIT MANAGEMENT

Crescent Health Solutions offers Pharmacy Benefit Management (PBM) services to help seamlessly coordinate Medical and Rx healthcare benefit administration. Crescent combines personalized customer assistance within a complement of PBM capabilities, including access to national pharmacy networks, expedient online claims processing, eligibility information management and consultative services.

### PBM Services:

- Customized Development (tiered co-pay and variable deductibles)
- Utilization review and plan design recommendations
- Drug evaluations, both voluntary generic and therapeutic substitution
- Comprehensive reporting including benchmark comparison reports
- Drug utilization reviews, identifying adverse and inappropriate drug utilization
- Drug therapy adherence programs and coaching
- Discounted drugs at most U.S. pharmacies
- Disease management
- Patient education

Crescent PBM services are designed to focus on the needs of employers and employees by providing flexible plan designs, proven savings, and hassle free benefit management. Companies who work with Crescent experience optimal cost effectiveness and superior quality customer service.

Crescent Pharmacy Benefit Management Services can help save on benefit expenses through reduced drug costs and clinically driven health management oversight.
